Carmelo Pullara, Front-End Developer

FAVARA, ITALY ·

PROFILE

Ambitious, hard worker, quick learner, with an insatiable thirst for knowledge. My career has started in 2012, and since then I have gained extensive experience of web development.

With six years of professional experience as freelance Front-End developer, I now specialize in building web and mobile applications with the modern JavaScript stack: React, React Native, Redux, Node.js, Express, GraphQL and Apollo - paying particular attention to performance and accessibility.

EMPLOYMENT HISTORY

Front-End Developer, Toptal

Mar 2018 – Present, Remote

- Recruited as a JavaScript Developer, joining an exclusive network of talented developers where only best 3% of the applicants get accepted.
- Developing user interfaces with plain JavaScript and React.
- Full profile: https://www.toptal.com/resume/carmelo-pullara
